INDEPENDENT AUDITOR'S REPORT

To the members of National Testing Service - Pakistan

Report on the Audit of Financial Statements

Qualified Opinion

We have audited the annexed financial statements of **National Testing Service - Pakistan** ("the Company") which comprise the statement of financial position as at June 30, 2021, and the statement of income and expenditure, the statement of comprehensive income, the statement of changes in fund, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion, except for the effects of the matter described in the *Basis for Qualified Opinion* section of our report and to the best of our information and according to the explanations given to us, the statement of financial position, the statement of income and expenditure, the statement of comprehensive income, the statement of changes in fund and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at June 30, 2021 and of the deficit, the comprehensive loss, the changes in fund and its cash flows for the year then ended.

Basis for Qualified Opinion

1. As fully explained in note 14.3 to the financial statements, the Company does not have properly reconciled customers wise record of unearned income of Rs. 122,043,666 due to which we remain unable to verify the completeness and accuracy of the amount disclosed and resultantly are unable to determine whether any adjustment necessary to the financial statements in respect of this matter is required or not.

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Grant Thornton

Emphasis of Matters

1. We draw attention to note 1.1 to the financial statements which describes the reason for not presenting the Statement of Compliance with Public Sector Company (Corporate Governance) Rules, 2013, as required under the stated rules. Our opinion is not qualified in this matter; and

2. We draw attention to note 15 to the financial statements, which describes the uncertainty related to the outcome of tax contingencies. Our opinion is not qualified in this matter.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has a realistic alternative to do so.

Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for expressing an opinion on the effectiveness of the Company's internal control;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;

Grant Thornton

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

a) Except for the effects of the matter stated above, proper books of accounts have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
b) Except for the effects of matter stated above, the statement of financial position, the statement of income and expenditure, the statement of comprehensive income, the statement of changes in fund and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of accounts and returns;
c) Investments made, expenditures incurred and guarantees extended during the year were for the purpose of the Company's business; and
d) No zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

The engagement partner on the audit resulting in this independent auditor's report is Waqas Waris.

1 CORPORATE AND GENERAL INFORMATION

1.1 Legal Status and Operations

National Testing Service - Pakistan (the "Company") is registered with Registrar of companies of Securities & Exchange Commission of Pakistan (SECP), Islamabad under section 42 of companies ordinance 1984 (Repealed with the enactment of Companies Act, 2017). The principle activity of the Company is to provide testing & assessment services for admission and recruitment. The registered office of the organization is situated at Plot No. 96, Street No. 4, Sector H-8/1 Islamabad 44000, Pakistan.

SECP issued a show cause notice dated July 17, 2019 regarding non-compliance of the Public Sector Company (Corporate Governance) Rules, 2013 treating Company as a public sector company as defined in rules. Based on legal advice, the management is of the view that the Company does not fall under the ambit of public sector company and accordingly was not required to present statement of compliance with Public Sector Company (Corporate Governance) Rules, 2013. SECP referred the matter to Ministry of Science and Technology for confirmation of status of the Company. In this regard, the Ministry of Law and Justice through its letter ref 382/2020-Law-1 dated November 9, 2020 confirmed the Company as Public Sector Company as per section 1(54) of the Companies Act, 2017 by virtue of the Government enjoying indirect control. Accordingly, the Ministry of Science and Technology confirmed the legal status of the Company to the SECP through its letter ref 2(62)/2015-CIIT dated January 6, 2021 in line with the Ministry of Law and Justice opinion. However, the Board of Directors have decided in 57th Emergent Meeting dated February 25, 2021 that the Company will be considered as Public Sector Entity with effect from July 1, 2021 followed by necessary/mandatory amendments in Memorandum and Articles of Association.

2 BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and

- Accounting Standard for Not for Profit Organizations (Accounting Standard for NPOs) issued by the Institute of Chartered Accountants of Pakistan as notified under the Companies Act, 2017; and

- Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS Standards or the Accounting Standard for NPOs, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention.

2.3 Functional and presentation currency

These financial statements are presented in Pakistani Rupees, which is the Company's functional and presentation currency.

2.4 Significant estimates and judgments

The preparation of financial statements in conformity with the accounting and reporting standards requires management to make judgments, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from the other sources. Actual results may differ from these estimates.

The estimates and assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized on the period in which the estimates are revised if the revision affects only that period, or in the period of revision or future periods if the revision affects both current and future periods. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are as follows:

• assumptions and estimates used in determining the recoverable amount, residual values and useful lives of property and equipment (note 3.1.1);

• assumptions and estimates used in determining lease term and incremental borrowing rate of right of-use assets and corresponding lease liabilities (note 3.1.3);

- assumptions and estimates used in determining the useful lives and residual values of intangible assets (note 3.1.2);
- assumptions and estimates used in calculating the provision for impairment for account receivables (note 3.10.1);
- deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the assets may be utilized (note 3.4);
- assumptions and estimates used in disclosure and assessment of contingent liabilities (note 3.8); and
- assumptions and estimates used in determining current income under relevant tax law and the decisions of appellate authorities on certain cases issued in the past (note 3.7).
- assumptions and estimates used in determining the present value of for defined benefit obligation and other long term employment benefits (note 3.6).

2.5 New accounting standards, interpretations and amendments

2.5.1 There are certain amendments to standards that are mandatory for accounting periods beginning July 01, 2020 and are considered not relevant or have any significant effect on Company's financial statements and are therefore not detailed here.

2.5.2 Standards, interpretations and amendments to existing standards not yet effective

The following International Financial Reporting Standards (IFRS Standards) as notified under the Companies Act, 2017 and the amendments and interpretations thereto will be effective from the dates mentioned below:

		Effective date (annual periods beginning on or after)
IAS 1	Presentation of Financial Statements - Amendments regarding the classification of liabilities and Amendments regarding the disclosure of accounting policies	January 1, 2023
IAS 12	Income Taxes - Amendments regarding deferred tax on leases and decommissioning obligations	January 1, 2023
IAS 8	Accounting Policies, Changes in Accounting Estimates and Errors - Amendments regarding the definition of accounting estimates	January 1, 2023
IAS 16	Property, Plant and Equipment - Amendments prohibiting a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use	January 1, 2022
IAS 37	Provisions, Contingent Liabilities and Contingent Assets - Amendments regarding the costs to include then assessing whether a contract is onerous	January 1, 2022
IAS 39	Financial Instruments: Recognition and Measurement - Amendments regarding replacement issues in the context of the IBOR reform	January 1, 2021
IFRS 7	*Financial Instruments: Disclosures*- Amendments regarding replacement issues in the context of the IBOR reform	January 1, 2021
IFRS 9	*Financial Instruments* - Amendments regarding replacement issues in the context of the IBOR reform	January 1, 2021
IFRS 9	*Financial Instruments* - Amendments resulting from *Annual Improvements to IFRS Standards 2018–2020* (fees in the '10 per cent' test for derecognition of financial liabilities)	January 1, 2021
IFRS 16	Amendments regarding replacement issues in the context of the IBOR reform	January 1, 2021

The above standards and amendments are not expected to have any material impact on the Company's financial statements in the period of initial application.

Following standard and interpretation has been issued by the International Accounting Standards Board (IASB), which are yet to be notified by the Securities and Exchange Commission of Pakistan (SECP), for the purpose of their applicability in Pakistan:

IFRS 1 First time Adoption of International Financial Reporting Standards

The following interpretation issued by IASB have been waived of by SECP:

IFRIC 12 Service concession arrangements

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Significant accounting policies applied in the preparation of these financial statements are the same as those applied in earlier period presented except for changes in policies due to note 27 in these financial statements.

3.1 Property and equipment

3.1.1 Owned

Fixed assets except for freehold land and capital work in progress are stated at historical cost less accumulated depreciation and impairment losses, if any. Freehold land is stated at cost less impairment loss, if any.

Depreciation on fixed assets is charged to statement of income and expenditures using the straight line method so as to write off the depreciable amount of an asset over its estimated useful life after taking into account their residual values. Leasehold land is amortized over the lease period extendable upto 99 years. The assets' residual values and useful lives are reviewed at each financial year end and adjusted if impact on depreciation is significant.

Depreciation on additions to property and equipment is charged from the year in which an asset is acquired or capitalized, while no depreciation is charged for the year in which the asset is disposed off.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance costs are charged to receipts and expenditures statement during the period in which they are incurred.

Gains or losses on disposal of assets, if any, are included in statement of income and expenditures as and when incurred.

3.1.2 Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment losses, if any. Subsequent cost on intangible assets is capitalized only when it increases the future economic benefits embodied in the specific assets to which it relates. All other expenditures are expensed as incurred.

Amortization is charged to the statement of income and expenditure on a straight line basis over the estimated useful lives of intangible assets unless such lives are indefinite. Amortization on additions to intangible assets is charged from the month in which an item is acquired or capitalized while no amortization is charged for the month in which the item is disposed off.

3.1.3 Leased assets:

At inception of a contract, Company assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Company.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease, or if that rate cannot be readily determined, Company's incremental borrowing rate.

Lease payments include fixed payments, variable lease payments that are based on an index or a rate amounts expected to be payable by the lessee under residual value guarantees, the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option, less any lease incentives receivable. The extension and termination options are incorporated in determination of lease term only when Company is reasonably certain to exercise these options.

The lease liability is subsequently measured at amortized cost using the effective interest rate method. It is remeasured when there is a change in future lease payments arising from a change in fixed lease payments or an index or rate, change in Company's estimate of the amount expected to be payable under a residual value guarantee, or if Company changes its assessment of whether it will exercise a purchase, extension or termination option. The corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in the statement of income and expenditure if the carrying amount of right-of-use asset has been reduced to zero.

The right-of-use asset is initially measured based on the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentive received. The right-of-use asset is depreciated on a straight line method over the lease term as this method most closely reflects the expected pattern of consumption of future economic benefits. The right-of-use asset is reduced by impairment losses, if any, and adjusted for certain remeasurement of the lease liability.

3.2 Revenue recognition

Revenue is recognized at an amount that reflects the consideration, to which the Company expect to be entitled in exchange for transferring of services to its customers. Revenue from operations of the Company are recognized when the services are provided, and thereby the performance obligations are satisfied. Receivable is recognized when the services are provided to customers as this is the point in time that the consideration is unconditional because only passage of time is required before the payment is due. The Company recognizes contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as 'unearned income' in the statement of financial position.

Profit on bank balances are recognized on a time proportion basis on the principal amount outstanding and at the applicable rate.

3.3 Trade and other payables

Liabilities for trade and other amounts payable are measured at cost which is the fair value of the consideration to be paid in the future for goods and services received whether billed to the Company or not.

3.4 Taxation

Taxation for the year comprises current and deferred tax. Taxation is recognized in the statement of income and expenditure except to the extent that it relates to items recognized directly in equity or in other comprehensive income.

Current

Provision for current taxation is based on taxable income at the current rates of tax after taking into account applicable tax credits, rebates, losses and exemptions available, if any

Deferred

Deferred tax is accounted for using the liability method in respect of all taxable temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that is no longer probable that the related tax benefit will be realized.

Unrecognized deferred income tax assets are reassessed at each date of statement of financial position and are recognized to the extent that it becomes probable that future taxable profit will allow deferred tax asset to be recovered.
Deferred tax assets and liabilities are measured at the tax rate that are expected to apply to the year when the asset is utilized or the liability is settled, based on the tax rates that have been enacted or substantially enacted at the financial position date.

3.5 Cash and cash equivalents

Cash and cash equivalents comprises of cash in hand, cheques and pay orders in hand, balances with banks and highly liquid short term investments that are readily convertible to known amounts of cash and which are subject to insignificant risk of change in value with maturity of three months or less from the date of acquisition.

3.6 Employees benefits

The Company operates unfunded gratuity and leave encashment schemes for all its employees who have completed the minimum qualifying period of service as defined under the scheme. Provision is made annually to cover obligations under the scheme on the basis of actuarial valuation and is charged to income. The most recent valuation was carried out as at June 30, 2021 using the " Projected Unit Credit Method". Actuarial gains or losses, if any, are recognized immediately. The results of actuarial valuation are summarized in Note 13 of these financial statements.

3.6.1 Gratuity

The Company operates an unfunded gratuity scheme for its regular employees. The scheme pays a lump sum benefit to members on leaving the Company's service after minimum of 4 years. The benefit is calculated by using the formulae: Last drawn basic salary multiplied by number of completed years of service.

3.6.2 Leave encashment scheme:

The Company operates an unfunded leave encashment scheme for all of its employees. The employees of the Company are entitled to take 24 days of earned leave every year. The unutilized leaves is accumulated upto a maximum of 90 days. Leave encashment is made on the last drawn basic salary.

3.7 Provisions

Provisions are recognized when the Company has a legal or constructive obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made.

3.8 Contingent liabilities

A contingent liability is disclosed when the Company has a possible obligation as a result of past events, whose existence will be confirmed only by the occurrence or non-occurrence, one or more uncertain future events not wholly within the control of the Company; or the Company has a present legal or constructive obligation that arises from past events, but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or the amount of the obligation cannot be measured with sufficient reliability.

3.9 Account receivables and other receivables

Account receivables and other receivables are recognized initially at the amount of consideration that is unconditional, unless they contain significant financing component in which case such are recognized at fair value. The Company holds the account receivables with the objective of collecting the contractual cash flows and therefore measures the account receivables subsequently at amortized cost using the effective interest rate method.

3.10 Financial instruments

All financial assets and financial liabilities are recognized at the time when the Company becomes a party to the contractual provisions of the instrument. All the financial assets are derecognized at the time when the Company loses control of the contractual rights that comprise the financial assets. All financial liabilities are derecognized at the time when they are extinguished that is, when the obligation specified in the contract is discharged, cancelled, or expires. Any gains or losses on de-recognition of the financial assets and financial liabilities are taken to the statement of income and expenditure.

3.10.1 Financial Assets

The Company classifies its financial assets into following three categories:

- fair value through other comprehensive income (FVOCI);
- fair value through profit or loss (FVTPL); and
- measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows. A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

(i) Amortized cost

Assets that are held for collection of contractual cash flows where those cash flow represents solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets, impairment losses, foreign exchange gains and losses, and gain or loss arising on derecognition are recognized directly in income and expenditure.

(ii) Fair value through other comprehensive income

Financial assets at fair value through other comprehensive income are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(iii) Fair value through profit or loss

Assets that do not meet the criteria for amortized cost or fair value through other comprehensive income or assets that are designated at fair value through profit or loss using fair value option, are measured at fair value through profit or loss. A gain or loss on debt investment that is subsequently measured at fair value through profit or loss is recognized in profit or loss in the period in which it arises.

Recognition and derecognition

Regular way purchases and sales of financial assets are recognized on trade-date, the date on which Company commits to purchase or sell the asset. Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and Company has transferred substantially all the risks and rewards of ownership.

Measurement

At initial recognition, Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in statement of income and expenditure.

Debt instruments

Company subsequently measures all debt instruments at amortized cost as assets are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest. Interest income from these financial assets is included in other income using the effective interest rate method. Any gain or loss arising on derecognition is recognized directly in statement of income and expenditure and presented in other income / (loss).

Impairment of financial assets

Company recognizes loss allowances for Expected Credit Losses (ECLs) in respect of financial assets measured at amortized cost.

Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balance for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on Company's historical experience and informed credit assessment and including forward-looking information.

Company assumes that the credit risk on a financial asset has increased significantly if it is more than past due for a reasonable period of time. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which Company is exposed to credit risk.

3.10.2 Financial Liabilities

The Company classifies its financial liabilities in the following categories:

- at fair value through profit or loss; and
- other financial liabilities

The Company determines the classification of its financial liabilities at initial recognition. All financial liabilities are recognized initially at fair value and, in the case of other financial liabilities, also include directly attributable transaction costs. The subsequent measurement of financial liabilities depends on their classification, as follows:

a) Fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held-for-trading and financial liabilities designated upon initial recognition as being at fair value through profit or loss. The Company has not designated any financial liability upon recognition as being at fair value through profit or loss.

b) Amortized cost

After initial recognition, other financial liabilities which are interest bearing are subsequently measured at amortized cost, using the effective interest rate method. Gain and losses are recognized in the statement of profit or loss, when the liabilities are derecognized as well as through effective interest rate amortization process.

3.10.3 Offsetting

A financial asset and financial liability is off-set and the net amount is reported in the statement of financial position when there is a legally enforceable right to set-off the transaction and also there is an intention to settle on a net basis or to realize the asset and settle the liability simultaneously.

3.10.4 Impairment of financial assets:

The Company assesses on a forward looking basis the Expected Credit Losses (ECL) associated with its debt instruments carried at amortized cost and FVTOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Following are financial instruments that are subject to the ECL model:

- Trade debts
- Loans, advances and deposits
- Cash and bank balances

General approach for loans, advances and deposits, and cash and bank balances

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information (adjusted for factors that are specific to the counterparty, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate). As for the exposure at default for financial assets, this is represented by the assets' gross carrying amount at the reporting date. Loss allowances are forward-looking, based on 12 month expected credit losses where there has not been a significant increase in credit risk rating, otherwise allowances are based on lifetime expected losses.

Expected credit losses are a probability weighted estimate of credit losses. The probability is determined by the risk of default which is applied to the cash flow estimates. In the absence of a change in credit rating, allowances are recognized when there is reduction in the net present value of expected cash flows. On a significant increase in credit risk, allowances are recognized without a change in the expected cash flows, although typically expected cash flows do also change; and expected credit losses are rebased from 12 month to lifetime expectations.

Simplified approach for account receivables and security deposits

The Company recognizes life time ECL on account receivables and security deposits, using the simplified approach. The measurement of ECL reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes.
- reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

As the Company applies simplified approach in calculating ECLs for account receivables and security deposits, the Company does not track changes in credit risk, but instead recognized a loss allowance based on life time ECLs at each reporting date. ECLs on these financial assets are estimated using a provision matrix approach adjusted for forward looking factors specific to the debtors and economic environment.

The Company recognizes an impairment gain or loss in the statement of income and expenditure for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVTOCI, for which the loss allowance is recognized in other comprehensive income and accumulated in the investment revaluation reserve, and does not reduce the carrying amount of the financial asset in the statement of financial position.

3.11 Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated.

An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. Impairment losses are recognized in the income and expenditure statement.

An impairment loss recognized in the prior periods is assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

Unclaimed invigilation fee	14.5	**24,382,620**	24,391,256
		380,728,171	302,960,226

14.1 This includes outstanding payments to institutes/vendors against various services amounting to Rs. 21,774,277 (2020: Rs. 6,380,283).

14.2 The amount represent the retention money maintained in a separate bank account as per section 217 of Companies Act 2017.

14.3 This represent test fees received in advance from candidates against different projects. The Company is in process of customer wise reconciling this amount as scrutiny of the record is in progress and is expected to be concluded soon.

14.4 This represents amount payable for GAT law test to individual candidates in accordance with the decision of Lahore High Court in 2015.

14.5 This represents invigilation fee payments credited in bank accounts of the Company as invigilators have not claimed these amounts these since 2016.

15 CONTINGENCIES AND COMMITMENTS

15.1 A raid was conducted on Company's office by the Director I & I under Section 175 of the Income Tax Ordinance, 2001 (the Ordinance) on October 30, 2017. Consequent to the above raid, information was forwarded to the Commissioner Inland Revenue, LTU, Islamabad regarding alleged non-declaration of receipts for the tax years 2012-2016. The Deputy Commissioner Inland Revenue (DCIR) accordingly issued show cause notices for amendment proceedings and passed amended orders on December 30, 2017, thereby leaving the appellant condemned unheard.

Assessments for the tax years 2011 to 2016 were amended by the DCIR, charging tax on gross receipts/ bank credits of the Company including interbank transactions and reversals as unexplained income under section 111(1)(d)(ii) / 122(5) of the Ordinance. The receipts for the project period for the tax year 2011, 2012 and 2013 (up to May 2013), which represented the period when 'National Testing Service' was working under the control and Management of COMSATS Institute of Information Technology, Islamabad, were also taxed in the hands of the Company. Revised assessments resulted in Income tax demand aggregating Rs. 3,348,615,120. Tax department also charged penalties equal to tax from tax year 2012 to 2016 under section 181(12)/ 122(5) of the Ordinance through order dated 31 January 2018 aggregating to Rs. 3,300,133,740. Being aggrieved, the Company filed separate appeals before the Commissioner Inland Revenue Appeals (CIR(A)) and the assessments were remanded back to the DCIR for making re-assessment after giving opportunity of being heard. The appellate orders of CIR(A) were contested by the Company as well as tax department through cross appeals before Appellate Tribunal Inland Revenue (ATIR). The management based on tax consultant advice, is hopeful that cross appeals pending before ATIR shall be decided in favor of the Company and hence provision only to the extent of tax refunds for tax year 2015 and 2016 is accounted for in these financial statements.

Out of this demand, tax department has coercively recovered Rs. 121,499,511 from Company's bank account by disregarding stay of ATIR granted in respect of such demand. The recovery was challenged before the Honorable High Court in Writ Petition No. 3401/2015 and based on consultant advice, the management is hopeful that the recovery shall be declared illegal.

15.2 Income tax demand amounting Rs. 25,356,848 was created in terms of Section 161/205 of the Ordinance for tax year 2015. The assessment was remanded back by the first appellate authority and cross appeals are pending before ATIR. The management is hopeful of a favorable outcome as the assessment was made on estimate basis, in haste and without affording opportunity of being heard.

15.3 On the basis information received from the Directorate General of Intelligence and Investigation, in consequence of raid and confiscation of records, order-in-original was passed against the Company creating sales tax on services demand of Rs. 707,517,918 and 100% penalty of Rs. 707,517,918 from year 2015 to 2017. The first appeal submitted before CIR(A) was rejected by confirming the order-in-original. The Company has filed appeal before the ATIR, which is pending adjudication. The management is hopeful of a favorable outcome as the revenue has accordingly been taxed in respective provincial jurisdictions.

15.4 Tax department has coercively recovered Rs. 69,746,999 from Company's bank account in respect of these demands. The recovery was challenged before the Honorable High Court and based on consultant advice, the management is hopeful that the recovery shall be declared illegal.

23.2 Financial instruments and financial risk management

Determination of fair values

A number of the Company's accounting policies and disclosures require the determination of fair value, for both financial and non–financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods.

Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 : Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 : Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Transfers between levels of the fair value hierarchy are recognized at the end of the reporting period during which the change has occurred.

Non – derivative financial assets

The fair value of non–derivative financial assets is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date. This fair value is determined for disclosure purposes.

Non – derivative financial liabilities

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date.

Financial risk management

The Company has exposures to the following risks from their use of financial instruments:

Credit risk

Liquidity risk

Market risk

Risk management framework

The Board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board is responsible for developing and monitoring the Company's risk management policies.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

23.3 Credit risk

Credit risk represents the accounting loss that would be recognized at the reporting date if counter parties fail to perform as contracted and arises principally from receivables. The Company's policy is to enter into financial contracts with reputable counter parties in accordance with the internal guidelines and regulator requirements.

23.3.1 Exposure to credit risk

The carrying amounts of the financial assets represent the maximum credit exposures before any credit enhancements. The carrying amounts of financial assets exposed to credit risk at reporting date are as under:

	2021	2020
	Rupees	Rupees
Accounts receivables	**39,419,817**	157,182,006
Deposits	**12,841,045**	37,700,118
Bank balances	**381,156,289**	222,025,196
	433,417,151	416,907,320

23 FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

23.1 Accounting classifications and fair values

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

		Carrying amount			Fair value

	197,769,805	**158,349,987**	231,109,857	73,927,851

The movement in the allowance for expected credit losses in respect of accounts receivable and security deposits during the year was as follows:

	2021 Rupees	2020 Rupees
Accounts receivable		
Balance at beginning of the year	**73,927,851**	15,293,653
Impairment charge on financial assets during the year	**84,422,136**	58,634,198
Balance at end of year	**158,349,987**	73,927,851
Security deposits		
Balance at beginning of the year	**17,759,383**	21,860,373
Impairment charge/(reversal) on financial assets during the year	**15,217,852**	(4,100,990)
Balance at end of year	**32,977,235**	17,759,383

Concentration of credit risk

Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their abilities to meet contractual obligation to be similarly affected by the changes in economic, political or other conditions. The Company believes that it is not exposed to major concentration of credit risk.

23.4 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to manage liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Following is the maturity analysis of financial liabilities:

	Carrying amount	**Contractual cash flows**	**Six months**	**One to two years**	**Two to five years**	**Over five years**
	Rupees					
2021						
Accrued and other liabilities	**178,113,866**	**178,113,866**	**178,113,866**	**-**	**-**	**-**
2020						
Accrued and other liabilities	193,657,555	193,657,555	193,657,555	-	-	-

23.5 Market risk

Market risk is the risk that changes in market price, such as foreign exchange rates, interest rates and equity prices will effect the Company's income or the value of its holdings of financial instruments.

a) Currency risk

Currency risk is the risk that the value of the financial instruments will fluctuate due to changes in foreign exchange rates. The Company's exposure to currency risk is limited to balance in bank account amounting to Rs. 1,622,252 (2020: Rs. 1,726,951).

yt

b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has no interest rate risk profile as it has no interest bearing financial instrument at balance sheet date.

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect statement of income and expenditure.

Cash flow sensitivity analysis

As the Company has fixed rate instruments therefore no sensitivity analysis is presented.

24 REMUNERATION OF CHIEF EXECUTIVE, DIRECTORS AND EXECUTIVES

	Chief Executive		Directors		Executives

27 RESTATEMENT

During the current year the Company has adopted IAS 19 for measurement of employees retirement benefits obligation. The adoption of IAS 19 resulted into a change in policy regarding the measurement of defined benefit plan and other long term benefit, (gratuity and leave encashment) to bring the same in line with requirement of "IAS 19; Employee Benefits". Previously these benefits were accounted under payment method. Now, after the adoption of IAS 19, these benefit obligations have been measured under unit credit method and the referred change has been accounted for retrospectively.
